

ALFA SCIENTIFIC DESIGNS, INC.
INSTANT-VIEW[®]

Alfa Scientific Designs, Inc., is an FDA-registered, ISO-certified U.S. manufacturer of rapid lateral flow immunoassays providing a variety of services to the medical device industry, including private labeling, IVD product development, and custom assembly and packaging. Our fully-equipped cGMP manufacturing facility in Southern California includes automated membrane printing, wrapping and sealing machines to accommodate large-scale runs with fast turn-around times. Our experienced team can assist with assay development and optimization as well as materials selection and feasibility studies. We deliver timely, personal service and proudly offer high-quality, cost-effective diagnostic product solutions tailored to your outsourcing needs.
