

## Our Company

Alfa Scientific Designs, Inc. (ALFA), established in 1996, is a creative leader innovating new products for rapid, point-of-care medical devices. For the past 20 years, ALFA has developed and manufactured rapid tests, all made exclusively in the USA, with more than 50 products that are US FDA 510(k) cleared (for professional and OTC use) and CLIA-waived.

## Our Products

ALFA specializes in rapid immunoassays for the detection of drugs of abuse, fertility hormones, infectious diseases, cardiac and cancer markers, and other diagnostic areas. ALFA has the most comprehensive family of high-quality diagnostic products in cassette and dip strip format to test urine, serum, whole blood and oral fluid specimens.

## Candidates

We are looking for self-motivated people who strive for both individual and organizational success that are seeking stable, long-term employment. Ideal candidates are individuals who have personal goals to pursue career growth opportunities at ALFA.

## What can you expect from a career with Alfa Scientific Designs?

You can expect to work in a friendly and supportive environment committed to providing long-term careers. We are a multi-cultural workforce with more than 45% of all employees having worked at ALFA between 5-20 years.
